Numb. 3393

TUESDAY, MARCH 1. 1743.

Yesterday arriv'd a Mail from Holland.

Constantinople, Jan. 22.

THERE seems to be no immediate Apprehension of a War with Persia, but inasmuch as the Ambition and Subtilty of Thamas Kouli Kan are well known here, Orders have been given for filling all our Magazines on the Frontiers to prevent a Surprize. In a Fortnight there is to be a grand Divan to which many Bashas are summoned from their respective Governments; whence we conclude, that the Affair on which they are to deliberate is of the last Importance. Some pretend, that it relates to the declaring War against a neighbouring Power; but this is look'd upon by all considerate People as a Story invented by the Partizans of that Court, which places its Glory in exciting Disturbances every where. A Polish Minister is arrived here, to demand the Indemnification for what promised for what the Subjects of the Crown of Poland suffer'd during the last War.

Stockholm, Feb. 20. M. Buchwald is employ'd here in drawing two Commissions; the first is, returning Thanks to the King and Diet of Sweden, for the Respect shewn to his Imperial Highness the Grand Duke Alexcory, in the late Election; and the other is, to recommend the Duke of Holstein Uten, Bishop of Lubec, and Uncle to that Prince, to be declared Successor to the Crown of Sweden in his Stead. Many of the ablest our Statesmen seem to doubt his Success in this Affair; but to those who are best acquainted with the present State of Things here, it does not appear in that Light, the Majority of the Nobles are certainly for it, as are the Clergy and the Peasants. It is true, part of the Nobility, and the Majority of the Burgesses, espous'd the Interest of the Duke de Deux Ponts, who, if he succeeds, will be the Viceroy of France, and ready to plunge the North into a War, whenever that Power is inclin'd to kindle one in Germany; the rest are for the Prince of Brunswick, and the Union of Colmar. Baron Hamilton arriv'd here from Petersbourg, and the rest of the Deputies are expected To-morrow, or the next Day, when they are to make their Report to the Senate.

Naples Feb. 5. We are still employed in furnishing the new Works with Cannon, and when this is once done, we shall flatter ourselves that we are safe from any Bombardment. Some able Seamen however are of a quite different Opinion; they pretend, that an Eighty or Ninety Gun Ship would beat all our new Works about our Ears; be this as it will, the erecting of them has serv'd to quiet the Minds of the People, which was a Thing very necessary to be done. The Regiments which are return'd from Lombardy are by this time completed, and we talk now of a grand Augmentation, without putting the King to a Penny Expence. The Landholders of this Country are bound by their Tenures to contribute to a certain standing Militia, styled the Battalion of the Kingdom. The Court has resolv'd to convert this Militia into twelve Battalions of regular Troops, and to raise on the several Cities, Baronies, and Manors, an Aid in Money, proportionable to the Men they have hitherto furnished to the Battalion of the Kingdom.

Genoa, Feb. 16. The Republick is exceedingly surprized at the Return of Baron Neuhoff to Corsica, on board an English Man of War, and much more at the Reception he has met with; since on the Publication of his Manifesto, he has been acknowledged for their lawful Sovereign by the Inhabitants of almost every District in the Island. It is said he proposes to go to Cort, in order to hold a Dyet of the States of Corsica, with a View to the opening the Ports in that Island to certain Vessels ready to act under the Queen of Hungary's Commission, and to procure the Levy of 10,000 Men for the Service of that Princess. The Ministers of the Republick at the Courts of Paris and Vienna have Orders to demand the Performance of the Guarantee entered into by the present King of France, and the late Emperor Charles VI. and the Minister at the Court of London has Orders to expostulate on the Succours afforded to the said Baron, who is now in a fair Way of being truly a Sovereign Prince.

Venice, Feb. 16. The first Division of the Reinforcement which the Court of Vienna is sending to its Army in Italy, is expected on our Frontiers on Monday the 18th Instant. We are just now inform'd, that it will be follow'd by a second Reinforcement, both together amounting to 12,500 Men, which will enable M. Traun to pass the Panaro, and drive the Spaniards out of their present Quarters. We are actually preparing to augment the Forces of this Republick, and it is said, this Augmentation will consist of double the Number of Troops that were first intended, because it is now pretty evident that the War in Italy will not be so soon over as was at first believed.

Vienna, Feb. 20. Prince Charles of Lorrain is to go to Brussels about the middle of next Month, in order to take upon him the Government of the Austrian Netherlands. Our Troops that were advancing towards the Frontiers of the Archbishoprick of Saltsbourg, have join'd the Forces marching from Tyrol, and we expect every Moment News from that Quarter of the last Importance. Prince Lobkowitz is Master of all the Upper Palatinate, 3 or 4 Places only excepted. The French have actually transported their Hospitals to Ingolstadt, and the prevailing Opinion is, that they will either quickly leave, or be obliged to abandon Bavaria.

Stadtamhoff, Feb. 21. The Reinforcement we have so long expected, arrived three Days ago on the other Bank of the Rhine, and have since then been passing over hither, partly in Platoons, escorted by the City Guard from one Gate of Ratisbon to the other, and partly over a Flying Bridge, which cannot, however, be always made use of, because the River is not entirely thaw'd. Another Body of Troops are marching towards Kelheim, in order to pass the River there. When these Forces can join, which will be in a few Days, they are to endeavour the dislodging Prince Lobkowitz from the Palatinate; which, however, will be no easy Undertaking. On the 16th, that General sent a Detachment to take Possession of Reiden and Schmidmühlen, Posts of very great Consequence upon the Wils, some Leagues beyond Amberg. We had there a Body of 200 Dragoons, of whom 40, with a Major and two Subaltern Officers, were made Prisoners, and upwards of 70 kill'd on the Spot. The Austrians have since retrench'd themselves in those Posts, and we, for our Parts, fortify this, as if we were on the Eve of a Siege. Count Khevenhuller and M. Seckendorff act so very mysteriously, that the French Generals are very much dissatisfied, and begin to doubt whether they have not privately agreed on a Cessation of Arms.

Paris, March 5. A Report begins to spread here, that his Majesty will go in Person to the Moselle, at least to review the Troops which are to assemble there, if not to command them. Both the Marshals Broglio and Maillebois have written in pressing Terms to be recalled. It is believ'd their Desire will be complied with, and that Count Maurice of Saxony will be declar'd a Marshal of France, and be entrusted with the Army in Bavaria in their Stead, in case his Majesty shall think fit to let his Troops remain there any longer. The Parliament having join'd its Representations to those of the Corporation, on the Subject of the Militia of Paris, and the Lieutenant-General de Police having made his Report as to the Disposition of the People, his Majesty has been pleased to declare, that provided that City shall raise a Regiment of three Battalions, consisting each of 600 Men, and which is to bear the Name of the Capital, he is content to supersede his former Ordinance. The City, tho' this is look'd upon as a bad Precedent, have accepted this Proposal, and are taking the necessary Measures for putting it immediately in Execution.

Hague, March 8. The Prince of Orange has written to the States General, to acquaint their High Mightinesses that the Princess, his Consort, was on the 28th of last Month brought to-bed of a Daughter, since baptized by the Name of Wilhelmina Charlotta; and their High Mightinesses have thereupon written a Letter of Felicitation to his Serene Highness. An Express pass'd thro' this Place Yesterday for Aix la Chapelle, with Orders of the last Importance for his Excellency the Earl of Stair. We have just now receiv'd Advice of the Death of the Electress Dowager Palatine, in the 76th Year of her Age.

COUNTRY NEWS.

Bristol, Feb. 26. We have an Account from Bedminster, of a Murder committed there about three Months since, on the Body of a Parish Girl, by Edward Line, (Tythingman of the said Parish, by Trade a Weaver) and his two Sons James and Thomas, and Susannah his Daughter; which, in all its Circumstances, is much such another horrible Affair as Madam Branche's.

This Murder was brought to Light on Account of the said Edward Line's threatening to sue one Thomas Short, at the Ship in Bedminster, for hinting some Matters relating to the Murder, and being an Instrument in having the Child dug up 14 Days after it was buried, and examined; when the Marks of Violence appeared in a conspicuous Manner on the Face, Temples, Back, &c. which reaching the Notice of Col. Codrington, those horrid Circumstances, and the Deposition of James Stokes, who was an Eye-witness to the Cruelty, and liv'd in the Family at the Charge of the Parish, occasioned their being all apprehended, and committed to Ivelchester Jail on Wednesday last, under a strong Guard.

She was the Daughter of a poor Woman who happen'd to lye thro' Bedminster, was taken up by the said Line, as big with Child, and the Deceased in her Hand, which so frighten'd the Woman, that she died a few Days after; and the poor Child being convey'd to its proper Parish, but refus'd Acceptance by the Parishioners, was then brought back to Line's House, and entertained at the Parish Charge.

We hear from Bradninch in Devonshire, that the Weavers of that Place are up in Arms on account of their Masters forcing them to take Corn, Bread, Bacon, Cheese, Butter, and other Necessaries of Life, in Truck, as it is call'd, for their Labour; a Practice utterly repugnant to the Laws of this Kingdom.

Norwich, Feb. 26. One Day last Week the Crown Alehouse at Caston-Woodrow was burnt to the Ground; and Yesterday a Woman who offered to sale some Silver Spoons, was carry'd before the Mayor, who sent her to Bridewell, she having owned that she stole the Spoons out of the above-mentioned Ale-house while the House was in Flames. It's reported there is a considerable Sum of Money missing.

On Tuesday last Matthew Legget, a Miller of Cringleford, got into a Waggon coming to this City, in which was a Person that had a small Quantity of Rum; it was agreed that the Miller should drink as much as he could in three go-downs for Four-pence-half-peny; but when he came to Norwich, he was so intoxicated that he was not able to support himself, but sliding off the Waggon, fell down to the Ground, and languish'd till 4 o'Clock on Wednesday Morning, and then expir'd. The Jury brought in their Verdict Accidental Death.

Admiralty-Office, February 24, 1742.

WHEREAS *many Seamen, who have been from time to time put on shore sick from his Majesty's Ships, either into Hospitals or Sick Quarters, have made so ill a Return to the Care taken for their Healths, as to desert from his Majesty's Service, when so far recovered as to be able to withdraw themselves from the said Hospitals or Sick Quarters, for which Crime they have incurred the Loss of their Wages, and according to Law they are punishable with Death by a Court Martial; but my Lords Commissioners of the Admiralty being willing to impute such Desertion to a Rashness of Thinking, which most of them soon repent of, and would return to their Ships, were it not for their Apprehensions of Punishment, which they are conscious they too well deserve; and their Lordships being inclined to shew so much Indulgence to those who are under the aforesaid Circumstances, in order to encourage them to return to their Duty, as to remove their said Apprehensions of being punished, do hereby declare, That such of the said Men who return on board the Ships to which they did belong, on or before the 25th of March next; or, in case those Ships are gone abroad, if they go on board some other of his Majesty's Ships, they shall not be punished in any manner whatsoever, on account of the Crime they have committed in withdrawing themselves from his Majesty's Service: And as a farther Encouragement to them, their Lordships are pleased moreover to declare, That such as shall so return, shall have their R's taken off, and be paid their Wages for the Ships from which they run: But their Lordships do also think fit to declare, That if any of the Men who have deserted as aforesaid, do not make a proper Use of the Indulgence hereby offered, by returning to his Majesty's Service within the Time above-mentioned, they must expect to be strictly sought after, and in case they are apprehended, be brought to a Court Martial, and treated as the Law directs.*

Concerning Gleets *and* Seminal Weaknesses *of all Kinds.*

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutio sui, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infeeble the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetis, Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Good, after having for many Years been experience'd never once to fail perfectly curing the most Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, or Urinary Passages, whichit almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weakness and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an immense Degree, insomuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigu'd with Gleets or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surprised at it.

When a Medicine will infallibly accomplish such a Cure, speedy and perfect Cure of such difficult Maladies, as Gleets and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and All who ever took it for any of the above-mention'd Purposes have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radford's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary.

LONDON: Printed for T. COOPER, at the *Globe* in *Pater-Noster-Row*.
